Technoarete® Group

Preaching Science....

About Us

Incorporated as a multidisciplinary research and development association under section 25 companies act as a non profitable entity Technoarete Group is a hope, trust, faith and believe of professionals and academicians. Technoarete is a paramount body which has brought technical revolution and sustainable development of science and technology. The Institute conducts technical conferences, seminars and workshop at different parts of country to reduce the gap between curriculum and their practical implementation among students and research scholars.
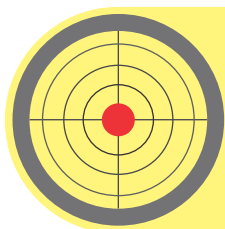

Professional Networking

Technoarete will be an essential asset to the Global technical community and to Technical professionals everywhere, and be universally recognized for the contributions of technology and of technical professionals in improving global conditions. Technoarete group is the largest body of life science, medical and engineering Technology Professional field.

Innovation & Incubation

Technoarete group interacts with its associates with theme of current technologies at our events. Technoarete organizes scientific events including international conferences, guest lectures, exhibitions, seminars, workshops, symposium, Implant tours and panel discussions. Technoarete is paramount event partner of college and Universities to organize Tech Fest and symposium. Our associated organization helps professional to bind up their thesis or research work by proving perfect guidance. Secure your innovation by filing a patent with us and avail our scientific information security and intellectual property.

Technology for Humanity

Serving Humanity with science is our journey with few milestone of activities to contribute towards society. Our beloved children with basic needs are being served by our volunteers with activities to weep tears from faces of our future generations. The organization also engages its staffs and members to provide free technical curriculum to unemployed youths to provide a scope of employment.

Mission of Technoarete is to bring a revolution in academic and industrial fields of engineering and technology by globalizing innovation.

Vision

Technoarete works with a vision to integrate the innovations of professional associated to engineering and technology and to build up a common platform to share knowledge in fields of academia as well as industries related to different streams of science ,engineering and technology.

We at Technoarete believes with concept of dreams come reality true our dedication, effort and determination.

Objective

1) To provide a world class platform to researchers to share the research findings by organizing International/National Conferences.
2) To use the research output of the conference in the class room for the benefits of the students.
3) To encourage researchers to identify significant research issues in identified areas, in the field of Science, Engineering, Technology and Management.
4) To help dissemination of their work through publications in a journal or in the form of conference proceedings or books.

Significance of the name:

Techno" from Greek meant "Art, Skill, Craft, Method, System" with the meaning "Technique, Technology, Technical, Technician, Technicolor, Technique, Technobabble, Technocracy, Technocrat etc
"Arete" focusing on advancement of science application of technology to our next generation, we have left the prefix as Techno which implies as our dream of transformation.

Arête or Areté - Originality in International Language:

French:
"Arete" implies a sharp mountain ridge thus making us at the crest of technology.
The pick and top most point of mountain is Arête, hence Technoarete tops in Technology.

Greek:
Ἀρετή (Greek) means moral virtue and excellence in any professional field.
Our continuous effort to bring change in science with a priority to moral virtue and excellence is signified in our name.

In ancient Greece, arete meant "goodness" or "excellence". It's related to "aristos" meaning "the best" which is where "aristocracy", is the rule of the best people. Ancient Greek people thought of arete as meaning "Be all that you can be." It meant that you were being the best person you could be.

Roman:
Roman Mythology believes a Queen Arete, a character in Homer's Odyssey. Her name appears to be associated with the Ionic noun ἀρητή, meaning "sacred", "cursed" or "prayed." Some sources claim that it means "righteous", while others connect it with Ares, the Greek god of war.

Mythology:
Arete is also depicted as an intelligent and generous hostess by Apollonius in Book 4 of the Argonautica.

Persian:
Arete is point from artes which is pronounced as arête is the god of war which makes us a strong, potential and enthusiastic to stand for the world.

English:
The nearest equivalent meaning of arête is excellent and virtue.
The only true way to understand arête is to consider two or more example of excellence and to contemplate what it is.

For Plato, arete is mainly associated with moral excellence. It is superordinate to specific moral virtues of Courage.

Our Group

Fulfilling the professional needs of researchers compiled us to start our venture to provide multidimensional academic, scientific and professional services.

With our dream to occupy international market on professional networking we came up with several startup ventures and our brands at a rapid rate.

World Wide Operation

With a vision of expansion to horizon we started operating worldwide with our scientific activities at early 2014.

- International Conference on Nursing at Singapore
- World Summit on Cancer Science and Therapy at Singapore
- Global Summit on Vaccines and Virology at Singapore
- Dentistry and Oral Health Summit On Singapore
- International Symposium on ENT Disorders and Its Remedies at Singapore
- World Summit On Cancer Science And Therapy
- World Summit On Cancer Science And Therapy at Singapore
- Global Summit On Pharmaceutical Science And Clinical Trials at Copenhagen, Denmark
- NANOTEK Conferences at Hamburg, Germany
- International Conference on Emerging Trends in Environmental Engineering and Pollution Control (ICETEEPC-17) at Beijing , China
- 2nd Asia Pacific Nano Biotechnology Summit at Singapore
- 2nd Global Summit on Pharmaceutics and Drug Delivery Systems at Singapore

Business Excellence

Our excellence in contributing towards academics and scientific committee debits our dedication and determination towards science.

Our associates and partners with worldwide operation and international accessibility have successfully achieved our ambition to form the largest scientific organization of the world.

Our journey towards our focus over last 5 years made us form a strong network of professionals all across the world connecting researchers from engineering and life science.

We dream of a world where innovations at gross root could reach global forum.

Innovation

The epic of scientific advancement with the era of revolution consist of pages of scientific innovation.

Technoarete Group works on innovation, invention and incubation to achieve its mission to create a potential and centralized professional committee operating worldwide. Our R&D team support innovations and scientific creativity starting from gross root of academic to world class conference. Being a potential organization of resources and societies, we welcome innovations and proposals to change the world.

Technoarete is a open platform where educational institutes, professional organization and industries can collaborate to carry and create inventions and innovations.

Our Achievements

Technoarete Group works on innovation, invention and incubation to achieve its mission to create a potential and centralized professional committee operating worldwide. Our R&D team support innovations and scientific creativity starting from gross root of academic to world class conference. Being a potential organization of resources and societies, we welcome innovations and proposals to change the world.

Our journey towards our focus over last 5 years made us form a strong network of professionals all across the world connecting researchers from engineering and life science. Technoarete Group & IFERP brought more than 10000 professional members all over India and conducts more than two hundred International conference every year. Technoarete group and associated companies have brought revolution in advancement of science and technology.

Services:

Scientific DBMS:

Identifying potential research works and globalizing innovation is our commitment to academics. Technoarete along with its associate emphasize on allocation of unique digital identifiers to the research articles.

Proficiency:

- Uniqueness
- Global Accessibility
- Internal existence
- Quality Assessment
- Convenient Citation

About DOI Directory:

Digital object identifier is a unique number allocated to each research paper published by IFERP. DOI Directory is a exclusive scientific indexing and article identification service by Technoarete research and development association. Scholarly articles related to science, technology, engineering, management and medicine and health science could be identified with their ever existence with unique DOI Number.

Article Citation

Since beginning of our journey providing a centralized database for citation, references and bibliography was needed to be established.

In year 2013 Technoarete Group came with an epoch making initiative to start the most convenient and accessible scientific database with the name ResearchPedia

About ResearchPedia:

Accepted Scientific Research papers will be available in Digital Scientific ResearchPedia. Making our clients, members and subscribers get into the prefect scientific database to browse, refer and site the needed bibliography is the role of ResearchPEDIA.

ResearchPEDIA is a centralized scientific article database governance by Technoarete Group for citation of unique research articles.

ResearchPEDIA
.org

Article Management

Research article and scientific abstract are our wealth and Technoarete is expert and keen at preserving them for reference by our future generation.

We have efficient and effective article management system to short list, segregate and concise professional article research papers and scientific abstract.

Digital Library

Our digital library is one of our best scientific database management services. Swift growth of Technoarete Group receives lakhs of articles, thousands of publication and hundreds of journals in a very short span of time. For convince of our followers, members and subscribers we came up with our digital library by launch of Academic Research Library (ARL) in the year 2014.

Academic Research Library is one of the top international digital library that consist of proceeding, periodicals, publication and journals from different area of academic.

Scientific Gallery

Connecting with millions of makes necessary to preserve our memories with them. Our global operations and hundreds of scientific activities every year left us with millions of captures, stills, photographs and images.

Centralizing our galleries of our multifunctional organization Technoarete came up with research gallery.

Faculty Development

Our faculties are building wizards of future technologies. Our efficient and skill resource management believes transformations could be brought by bringing skill development among faculties of professional colleges and Universities. Our associates and ventures of Technoarete group provides faculty development program in different colleges, Universities and educational institutes to reinforce and upgrade the professional educational system.

Skill Development

Technoarete coordinate skill development programs in all associated colleges and Universities across the world,

Training Program, Skill development, building of new skill and innovative thinking will help to develop towards becoming a global knowledge. Technoarete aims to skill on a large Scale with Speed and high Standards in order to achieve its vision also we intends to work with the existing network of skill development centers, colleges / Universities and other alliances in the field.

CONFERENCE

Engaging academics in rigorous interactions about updated scopes in their field is very important. Technoarete group interacts with its associates with theme of current technologies at conferences, scientific events, professionals meetings, workshops.

Organizing conference to make our peers and wizards meet to share their experience, knowledge and researchers is our focus. Since, we have started our dedicated journey every year Technoarete organize International Conferences and global standard events in different colleges, Universities & conventions to provide scope for scientific interactions to technically budding researchers for our country.

To reduce a cap between academics & Industries we have emphasized on the research connection among a engineers, scientists and researchers at our conference. Without discrimination among developing cities remote areas, Cosmo polis and cosmopolitan cities in India. Technoarete has organizes International Conference at educational Institute booming at gross roots.

Exhibition & Expo

Chasing the technology and gadgets related to application of science is also our responsibility. Technoarete organizes Expo and Exhibition on current trends of engineering and medical science. Our Expo and Exhibition are best out with overseas companies and international visitors.

Scientific Fest

Technoarete organizes Events including Guest lectures, exhibitions, and workshops, symposium, Implant tours and panel discussions.

Technoarete is paramount event partner of college and Universities to organize Tech Fest and symposium.

We assist educational institutions with A-Z professional execution of symposium and tech fest. The biggest chain of professional networking we make the science fest for worth of attendees.

Workshops

Technoarete organizes meeting at colleges and Universities a group of people engage in intensive discussion and activity on a recent / particular topics.

Convention & Meetings

Making professional meet interact and share our creed. So our convention and meetings are our worth. We are keen at organize technical convention and meeting all across the world with our experts and delegates.

CPE Credit

Our Scientific events and activities our validated with Continuous Professional Education credit points. Evaluating the duration of scientific events, programs, trainings and courses. Technoarete provides our delegates with Continuous Professional Education (CPE) credits.

Quality Assessments

We are a strong deliver of quality and excellence. Being a pioneer of scientific studies and academics we are a quality analyzer of different aspects of existing professional education system.

We believe every unit and sub units of professional studies would avail increments in quality and excellence.

- Publication & article analyzes
- Infrastructure Assessments
- Centre of Excellence
- Research Analyze

Awards & Excellence

Technoarete Awards recognize members for their technical contributions, professional excellence and career achievement, industry leadership and public service.

Below are the categories for the awards
- **Ashok Jain Awards of Academic Research & Higher Education**
- **Smt. Snehalata Dash Awards for Scientific Excellence**

"Ashok Jain Awards of Academic Research & Higher Education" recognizes individuals who will make significant technical and professional contributions to the outstanding academic Research on engineering technology profession. Ashok Jain award recipients are announced in January on the Technoarete website and published in our Journals.

Association and Societies

As our taglines we always focus to bring professionals together onto one platform. Technoarete governs several professional associations, societies and communities including professionals from all major discipline and research areas.

As our taglines we always focus to bring professionals together onto one platform. Technoarete governs several professional associations, societies and communities including professionals from all major discipline and research areas.

Association of cloud technologists

http://academicassociations.com/associate/index.php?as=2
- **Global association of nanotechnology**

http://academicassociations.com/associate/index.php?as=6
- **International association for big data analysts**

http://academicassociations.com/associate/index.php?as=1
- **International association for IOT**

http://academicassociations.com/associate/index.php?as=5
- **International wireless network association**

http://academicassociations.com/associate/index.php?as=3
- **World association for structural engineers**

http://academicassociations.com/associate/index.php?as=4

Organization

Our efficiency and excellent are because of combined effort of our worldwide operating organization. Fulfilling the requirements of world academics and professional researchers requires organization to provide services on different functionalities and areas.

To fulfill the requirements we came up with several globally operating operations with different functionality and services.

Local Chapter

Technoarete provides its members with an opportunity to form Institutional Professional Chapters in different parts of the country in order to organize various Seminars, Events & Conferences for the benefit of members.

Zonal Chapter

Technoarete supporting several colleges and Universities in India by indulging its professional members and leading academician like you by providing the sustainable solution to the challenges faced by the industries and academic institutions.

Professional Chapter

Join a Professional chapter to keep current technology and trends and collaborate with other tech professionals to shape the future of academic professionals and research scholars. Attend chapter meetings, conference and scientific events to meet experts, technical professionals and expand your personal network and connect with others who have similar interests.

Student Chapter

Student chapter resides at one or more colleges or universities and ideally involves students and faculty members from different departments. The purpose of a chapter is to generate interest in advancement of education and research in relevant field of science, engineering and technology by providing students opportunities to share ideas and enthusiasm with fellow students and faculty from any relevant department on campus.

- Explore career opportunities
- Make contacts that will last a lifetime
- Develop leadership skills

Institutional Chapter

Technoarete collaborate Engineering Colleges, Universities, Engineering Research Institutes and Organizations to work together for academic advancement and research development in fields of Engineering and Technology. Institutional Collaboration is a relationship of great mutual benefit to both. Technoarete helps for the Academic development has a history of meaningful, collaboration and partnerships that reflect the values of the academic community.

Our Multi disciplinary Operations

Science Engineering & Technology

Medical & Life Science

Business Economics & Management

Engineering & Technology

Institute For Engineering Research and Publication (IFERP) is India's one of the largest Non-profitable R&D Association operating under Technoarete Research and Development professional association.

IFERP is one of the leading International Publishers of research journals, proceeding, newsletters and innovative magazines. IFERP have multidisciplinary of International Peer Reviewed Journals with good Impact Factor which publishes high quality manuscripts on monthly & bi-monthly basis.

All the journals are indexed in Thomson Reuters ResearcherID, CiteSeer, DOI Directory, DOAJ, ORCID, Endnotes, Google Scholar, Malaysian, European Libraries and many more national & International libraries. Technoarete group is an association of a number of researchers, scientists, engineers, scholars, Professors and academic professionals supported by an International and National Advisory Editorial Board consisting of outstanding individuals representing many well-known universities and organizations in India, China, UAE, USA, Canada, Australia, Japan, Malaysia and many more.

Medical & Life Science

BioLEAGUES worldwide conducts events worldwide which help in enhancing the skillset of the people from diverse industries and forms a common platform for eminent personalities, physicians, researchers, doctors, and academicians, professional's business figures and much more. BioLEAGUES Journals is a peer reviewed and open access journal aimed to publish most interesting and complete reliable source of information on current development in Medical and life science in all areas.

BioLEAGUES publication is among of the prominent open access publishers that promote and globalize peculiar an innovation of researchers by publishing their scientific articles within the chronicles, journals and transactions of worldwide periodicals. This is an inventory of questionable, profound open-access publishers. we tend to suggest that students browse the out there reviews, assessments and descriptions provided here, so decide for themselves whether or not they need to submit articles, function editors or on editorial boards. In an exceedingly few cases, non-open access publishers whose practices match those of predatory publishers are additional to the list further.

Business Economics & Management

International Journal of Science Engineering and Management (IJSEM) is scholarly online open access and peer received journals emphasizing on research studies and application in field of Science, Engineering and Management.

With our research journals operations, we are trying to give a significant contribution to enhance the impact of research in areas like Business, Economics, engineering, science, management, education and their applications. The articles published in our IJSEM journals can be accessed easily online all over the world.

Research Consultancy

We support post graduate and post-doctoral researchers for completion for higher studies with proper professional guidance and academic support. Our renowned experts with wizards of science support corporate companies and industries to trouble shoot technical challenges. Relieving our researchers from financial constrains in our priority, which makes us work with our research funding scheme to support innovation in India.

Students, researchers, academicians and professionals are encouraged to reach us for a proposal of research funding. Our commitments and dedication of transformation of technology at re informed with our R&D consultancy and services.

Technoarete Groups provides research consultancy and technical advisors to researchers and academicians with a vast network of international experts in all areas of science, engineering and technologies.

Institutional Supports

Technoarete provides research consultancy and technical advisors to researchers and academicians with a vast network of international experts in all areas of science, engineering and technologies.

Scientific Activities:

- International Conferences
- Scientific Events and meetings
- Workshops
- Symposium
- Seminars
- Webinars
- Research Talks
- Training Programs
- Research Funding
- Research Club
- Tech Fest
- Exhibition & Expos

Activities

- Providing Membership benefits

Scientific Event Assistance

To create a worldwide integrated scientific platform we support engineering colleges and technical Universities in India financially and academically with our well connected resource professionals and members to organize International Conferences, Scientific events, R&D Assistance, Faculty Development Program, workshops and Professional / Student Chapters.

With our mission to make our academic services reach the top and grass root level of the institutions we are funding colleges to organize conferences and scientific events by which researches incubated are different areas of our country could directly contribute towards transformation of India. In this regards International conferences are being organized by Technoarete in different zones of our country.

DOI Directory is a exclusive scientific indexing and article identification service by Technoarete research and development association. Digital object identifier is a unique number allocated to each research paper published by IFERP.

Technoarete Group focuses on foundation, formations and operations of our associations and societies to unite researchers of common interest. Our organization operates several units like associations, societies, chapters, sections, advisory board, committees and other executive councils for smooth execution and management of our dream of scientific India.

Technoarete group will be organizing global standard conferences and scientific events with international speakers in each and every zone of India we have shortlisted your institute one among of few other institute at your area.

R & D Outsourcing

- We academicians sails our ships in ocean of knowledge. Handling our keys to trusted bankers is wiser's choice.

- We at Technoarete provide top to bottom services of Research and Development to Educational Institutes and Industries.

Being a cluster of pioneers of science and technology our ventures are strong enough to take responsibilities of R&D at different organizations.

Research Consultancy

We support post graduate and post-doctoral researchers for completion for higher studies with proper professional guidance and academic support. Our renowned experts with wizards of science support corporate companies and industries to trouble shoot technical challenges. Relieving our researchers from financial constrains in our priority, which makes us work with our research funding scheme to support innovation in India.

Students, researchers, academicians and professionals are encouraged to reach us for a proposal of research funding. Our commitments and dedication of transformation of technology at re informed with our R&D consultancy and services.

Hire our Experts

We are one of the potential resource utilizing conglomerates of Asia. Our associations, societies and organization are enriched with professional experts and scientist to troubleshoot your challenge.

We provide technical and professional assistance to our experts to Industries and research Institutes.

Hire as a Publisher

Scholarly publication is an important dimension in academics and we have excelled in global market. We are perfect publication partner for colleges, Universities, Educational Institutes and Research Industries to publish professional articles, thesis and survey reports.

Our Info Systems

Technoarete is equipped with high rated software infrastructure to meet the needs of global innovation and academics. Our developers and software engineers are dedicated creator of unit application that fulfills the need of academics and industries.

Plagiarism Software	Article Database Management	Citation and Indexing
Conference Management System	Digital Marketing	

Conference Management System (CMS)

Technoarete is a paramount body which has brought technical revolution and sustainable development of science and technology. Technoarete conduct technical conferences, seminars and workshop at different parts of country to reduce the gap between curriculum and their practical implementation among students and research scholars. Today Technoarete is one of the leading publishers of research papers in its high quality peer reviewed journals, proceeding and research magazine.

The Institute provides a brilliant scope of research and development to geniuses and wizards working in the field of engineering by providing financial aids by which economic constraints won't retaliate the technical growth and research development. Our CMS was designed to help conference organizers and committee members to scope with the complexity of the refereeing process.

Conference Management System

1. CMS helps to management and monitoring of the organizing committee;
2. Sophisticated and flexible management of access of our participants and referees to papers and conflicts of interests
3. Conference website creation
4. Automatic paper submission
5. Plagiarism Software
6. Registration process
7. List of the latest events & photos
8. Submission of reviewers
9. Sending email to student, faculties and authors about our scientific events / conference
10. Sending Conference Invitation & Call for paper
11. Acceptance Mail sending
12. Monitoring Emails & phone calls
13. Discussion about Abstract / Research papers
14. Acknowledgement and response queries
15. Preparation of conference proceedings
16. Generation and publishing of conference program
17. Generation of conference brochures and Posters
18. Update and generating information to the committee members & Many other features

Events & Conference

Promoting a conference and scientific event with Technoarete and its associated companies leads you to a benchmark of success.

Trying to connect with each and every professional, we are world's fastest growing chain of multidisciplinary promotional network.

Thesis and Patents

Our associated organization helps professional to bind up their thesis or research work by proving perfect guidance. Secure your innovation by filing a patent with us and avail our scientific information security and intellectual property.

Article and Publication

Research article and scientific abstract are our wealth and Technoarete is expert and keen at preserving them for reference by our future generation. We have efficient and effective article management system to short list, segregate and concise professional article research papers and scientific abstract.

Globalizing innovation through scientific publication was again in need to our academics. IFERP comes up its high standard publication which includes journals, proceedings, transactions and periodicals.

Emphasizing multi-disciplinary dimension in science, Engineering and technology, we publish several journal with relevant to different areas of researchers. IFERP Conference proceedings and journals have succeeded with international reputation with high volume of citation, references and bibliography.

Our digital library is one of our best scientific database management services. Swift growth of Technoarete Group receives lakhs of articles, thousands of publication and hundreds of journals in a very short span of time. Academic Research Library is one of the top international digital library that consist of proceeding, periodicals, publication and journals from different area of academic.

Centre of Excellence

We encourage our clients to build up their own community and infrastructure we are in a verge to establish Centre of excellence R&D units in developing and developed educational Institution, colleges and Universities in India.

Research Partnership

Team Technoarete provides research consultancy and technical advisors to researchers and academicians with a vast network of international experts in all areas of science, engineering and technologies.

We support post graduate and post-doctoral researchers for completion for higher studies with proper professional guidance and academic support. Our renowned experts with wizards of science support corporates companies and industries to trouble shoot technical challenges. Relieving our researchers from financial constrains in our priority, which makes us work with our research funding scheme to support innovation in India.

Students, researchers, academicians and professionals are encouraged to reach us for a proposal of research funding. Our commitments and dedication of transformation of technology at re informed with our R&D consultancy and services.

Student Chapter

Students pursuing their Graduate and Post Graduate in Science, Engineering, Technology and management can apply for student membership. We encourage and support students by appointing its members to provide necessary guidance to build and globalize their innovative ideas. With student membership one could avail a global contact with its professional associated in field of engineering and technology.

Our Student Chapter is a scientific association of Students with a minimum number of 20 students from a particular Institute. Technoarete Student Chapters provide unique opportunities to learn and develop leadership skills, research development, networking, mentoring and bonding. Student chapter of Technoarete are established by petition to our head office by the hosting institute / college / University.

Collaboration

All Colleges, Universities, Engineering Research Institutes and Organizations in India can apply for Institutional Collaboration. Technoarete welcomes applications from Colleges and Universities for collaboration to work together for academic advancement and research development in fields of Engineering and Technology. Institutional Collaboration is a relationship of great mutual benefit to both. Technoarete team helps for the Academic development has a history of meaningful, collaboration and partnerships that reflect the values of the academic community.

Benefits of Collaboration

- Technoarete Group will be conducting international conference every year at the college campus to provide a world class forum and scope for research development and promotion.
- We will be conducting series of workshop for student to reduce the gap between academic and practical implementation of curriculum
- Concession in professional membership: Faculties and professionals of College can avail our professional membership at a nominal membership fees
- Concession in student membership the organization will be granting a concession to the students to apply for student membership.
- Faculties and students can avail concession on registration fees at conferences, workshop and other world class events conducted by Technoarete Group at different colleges and cities in India as well as abroad.
- Students and faculties of college can avail concession for publication for research paper at our highly sited journals and transactions
- Research Talks: We will be appointing its eminent members from abroad, IITs, IISc, PSUs and leading industries to interact with faculties and students of College every year.
- Technoarete Group will be conducting industrial visit programs for students
- Technoarete Group will be establishing I-Center of excellence at college campus with full infrastructure of Mac systems were the research activities could be initiated, developed and globalized with a world class infrastructure for research and development
- Technoarete Group will be providing necessary supports to the college to avail funds under its research funding scheme [RFS]

Germany, 11th - 13th March 2017

Researchers Gallery, where we have unique and innovative permutation and combination of the perfection. Ranging from typical technology conferences to the advanced micro and subsets of latest popping up technology, we shoot our readers and listeners with all the latest innovated approached events.

MEMBER

Publication Partnership

Globalizing innovation through scientific publication was again in need to our academics. IFERP comes up its high standard publication which includes journals, proceedings, transactions and periodicals. Emphasizing multi-disciplinary dimension in science, Engineering and technology, we publish several journal with relevant to different areas of researchers.

Collaborating with international publishers with high impact & global citation and research articles of students, PhD scholars, professionals and members.

Membership

Technoarete Group welcomes applications and professional cv's to be a part and members in its committees, board and professional societies. Technoarete Membership offers access to technical innovations, cutting edge information networking opportunities and exclusive membership benefits. By filling the Membership Application, member(s) have part of Technoarete Group and professionals are reviewed and meet research development and promotion in the field of engineering and technology.

Technoarete Members are playing an active role by being in the organizing committee of its conferences and events.

Research Consultancy

We support post graduate and post-doctoral researchers for completion for higher studies with proper professional guidance and academic support. Our renowned experts with wizards of science support corporates companies and industries to trouble shoot technical challenges. Relieving our researchers from financial constrains in our priority, which makes us work with our research funding scheme to support innovation in India.

Students, researchers, academicians and professionals are encouraged to reach us for a proposal of research funding.

Our commitments and dedication of transformation of technology at re informed with our R&D consultancy and services.

Technoarete Groups provides research consultancy and technical advisors to researchers and academicians with a vast network of international experts in all areas of science, engineering and technologies.
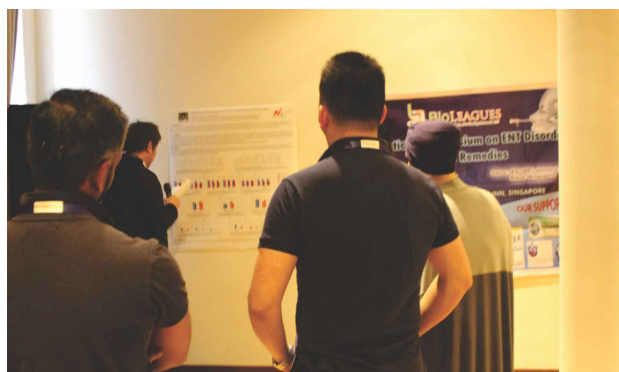

Join Us

Technoarete Group invites you to be a member, Keynote Speaker, Associated Members, Advisory or organization members in our committees/boards and to be part of it by contributing towards the advancement of education and research in relevant field of science, engineering and technology.

You could be entrusted in following committees and boards according to their will at their available free time.

- Volunteer
- Reviewers committee
- Organizing committee
- Editorial board
- National / International Advisory board
- Keynote Speaker
- Institutional Chapter Head

Association

With our professional members, scientist and experts wishes and continues support, we have been successful operate and active professional organization like IFERP and our other associates.

- Global Association of Nanotechnology
- Association of Cloud Technologists
- International Association for Big Data Analysts
- International Wireless Network Association

Technoarete Group ®

Preaching Science....

We dream of a modified professional education system that will focus on innovation and their swift application for society.
